Who's Jill Haseltine

Jill thrives on the success of your audiences and her clients. She is an engaging speaker who deliberately incorporates humor and audience participation into every presentation.

She speaks to businesses, schools, and organizations on an array of topics focused on people.

She inspires each audience member and each client to be deliberate about the things they want to accomplish.

Jill has as much fun during her presentations as her audience does.

Jill is absolutely amazing to watch. Jill's warmth and compassion gives her the ability to connect and engage with an audience unlike any other speaker I've ever seen.

Every time I've seen Jill present, I've seen very satisfied attendees. Many take action based on her messages. I launched my own workshops after one of Jill's presentations. I highly recommend her.
- Sparkie Lovejoy, New Workshop Leader :)

Jill's thought provoking advice on making "Deliberate Decisions" has inspired me to challenge several habits to eliminate and other habits to continue. I highly recommend Jill Haseltine.
